

## *Mini Wave Tote Bag*

Weavers who are weaving on their Mini Wave have asked us if there was a tote bag available for their Mini since they take it everywhere they go. We searched high and low and finally found one that fits it perfectly with room for lots of extras. The inside dimensions are 10 x 14 x 17 inches (W x H x L) and has a soft brown pattern outside. There is one large pocket in the front and a pocket on each side. The lid has a double zipper closure to keep everything inside. There are strap handles on each end and a long "pull out" handle that allows you to roll your tote on its wheels.
