

Quilted Mini Wave Tote Bag

Weavers who are weaving on their Mini Wave have asked us if there was a tote bag available for their Mini since they take it everywhere they go. We had found one and now we have found a better one with more pockets that fits it perfectly with room for lots of extras. The outside dimensions are 10 x 17 x 19 inches (W x H x L) and has a dark quilted pattern outside. There is one large pocket in the front and a pocket on each side. The lid has 3 pockets and a double zipper closure to keep everything inside. There are strap handles in the front and back that hook together, and a long "pull out" handle that allows you to roll your tote on its wheels.
